Cornus Florida Rubra - Pink Flowering Dogwood

This unique tree is the most popular of the FANCY FLOWERING TREES. It is called the Aristocrat among the finest plantings in America. This small, uniform tree is literally covered with large, sparkling, rose-pink flowers often measuring three to four inches in diameter before the leaves appear in the early spring. Its grayish-green foliage makes it attractive during Summer, and in early Autumn the foliage turns to a glistening rich crimson. Our select trees are propagated from buds taken from fine specimen trees which have the largest and most vivid colored blooms. The tree is extremely hardy and will thrive in most sections of the United States.

RED FLOWERING DOGWOOD

A NEW, Rare Species of the Dogwood Family

—Blooms a Distinct Rich Red—

Bloom a distinct, Rich Red! Color of the blossoms stay bright and clear throughout the entire blooming period.

BRILLIANT FOLIAGE ON NEW GROWTH

The new foliage growth in spring is an outstanding trait; brilliant leaves changing to dark green in summer and in the fall changing to crimson.

VIGOROUS GROWER

This plant grows with the vigor of a white flowering Dogwood, but has sturdy branching habits and develops into a uniform tree.

PATENT PENDING
TRADE MARK

Dogwood trees need a well-drained location with plenty of humus in the soil, and do best if mulched with pine straw or oak leaves. They should be planted where there is protection from afternoon sun, in warm areas.
